Developer Tools: VS Code, IntelliJ, PyCharm, GitHub, GitHub Actions

Databases: MySQL, PostgreSQL

Other Skills: Agile/Scrum, Problem-solving, Team collaboration

PROFIEL

I'm a motivated IT specialist with a degree in Applied Computer Science specializing in Software Engineering and AI. I like coming up with creative solutions and making useful applications. I'm a quick learner who is keen to take on new challenges and keep improving.

WORK EXPERIENCE

Spectrum Group BV feb. 2024 - jun. 2024
Internship - AI & Computer Vision

- Researched AI models for accurate object detection and selection in images.
- Explored computer vision techniques to enhance segmentation for practical use cases.
- Built a proof of concept integrating a Python model into a Node.js web backend.

Beego 2023 - 2025
IT Support

- At Beego, I help people with their IT problems, which further improves my own IT problem-solving skills.

Oh Green 2024 - 2025
Student worker at a garden center

- Restocking inventory and maintaining a neat and organized store environment.
- Operating the cash register and handling payments.
- Assisting with seasonal store displays and promotions.

EDUCATION

Postgraduate Bachelor in Applied Computer Science - Artificial Intelligence
Howest | 2024 - 2025

Bachelor of Applied Computer Science - Software Engineering
Howest | 2021 - 2024
